

DEPARTMENT OF HISTORY

BA HISTORY

MISSION

The Department of History seeks

- To equip its students with transferable skills of historical inquiry, data corroboration, and public-facing scholarship.
- To endow graduates with real-world skills which would help them connect their empirical training with the political philosophies that drive modern societies.
- To train students to be archival empiricists, focused on tackling socio-political and economic problems, and finding actionable solutions.

VISION

- The Department of History prepares thought leaders who would proactively identify vexing contemporary and future challenges, and look for research-driven solutions
- We train students to be self-initiators, who are strong communicators, and successfully persevere and thrive in both individual setup and teamwork.
- The Department shapes learners for the future, equipped to critically examine modern problems through applied social science frameworks and acquire skills to provide ingenious solutions to the world's complex challenges.

PROGRAMME EDUCATIONAL OBJECTIVES:

PEO1	Familiarize the social, economic, political and cultural developments in history with elements of change and continuity, rise of nationalism and capitalism, in Indian and Global history.
PEO2	Study the major developments in the world from the decline of the feudal age to the French revolution. Explore major developments in the modern world during the two World Wars that led to the emergence of the Cold War Era.
PEO3	Study of history, its method and the multidisciplinary approaches to the analysis of past societies under the themes viz., basic concepts in Archival and Field methods, Reconstruction and Interpretation of evidence.

PROGRAM SPECIFIC OUTCOME (PSOs)

PSO1	Students graduating from the History undergraduate programme would have a substantive and nuanced understanding of Indian and World History.
-------------	--

PSO2	Students would be trained in handling empirical material and have sound knowledge of empirical research methodologies.
PSO3	Students graduating from the History programme would be capable of using both archival and material culture/object-based sources when tackling research questions.

PROGRAMME OUTCOMES:

Upon completion of the Programmes, Graduates will be able to:

PO1	Demonstrate knowledge of multiple perspectives on human and ecological causes which have shaped significant developments in the history of the Indian subcontinent, from the earliest times up to the period after independence
PO2	Show familiarity with significant patterns of development in specific geo-political contexts of the ancient, medieval and modern world.
PO3	Identify patterns of change and continuity with regards to issues of contemporary significance over long durations, and across diverse geo-cultural zones.
PO4	Distinguish between Historical knowledge , which is based on historical inquiry and is time-place context driven, hence changeable and challengeable, from that which is not History.
PO5	Assess multimodal historical sources , in a critical and objective manner, while remaining sensitive to gender and social inequities in human societies.
PO6	Pose probing research questions which expand the frontiers of knowledge and lead to a reassessment of existing secondary literature, if any, on the subject.
PO7	Demonstrate mastery of relevant databases and archives , when referring to primary sources on relevant historical research questions.
PO8	Recognize causation , as opposed to correlation, when sifting through disparate sets of information from varied sources, and weaving them into a coherent argument.

SEMESTER-II

Historical Methodology

Course Outcomes:

After completing the Course, the student will be able to:

CO1: Demonstrate understanding of the evolution of historical methodology since early times, and the importance of empiricism and causation to the modern Historian's craft.

CO2: Conduct research and writing in History using primary sources.

CO3: Show basic knowledge on qualitative research techniques, objectives of doing research, research process, research designs and sampling.

CO4: Analyze different types of primary sources in trying to answer a research question.

CO5: Assess the validity of each source while pursuing corroboration through the empirical method.
